WHAT WE DO AND HOW WE DO IT

We provide low-overhead, boots-on-the-ground representation in Japan for midsize North American suppliers that already have programs with Japanese OEMs (Toyota, Honda, Nissan, etc.) but lack dedicated local presence.

Backed by 25+ years in Japan and direct Toyota HQ experience, we act as your on-site liaison — handling customer visits, technical coordination, follow-up, and cultural navigation so you can reduce expensive travel while deepening relationships.

We help you:

- **70–90%** reduction in executive travel while strengthening OEM ties
- **Real-time (Japan Standard Time)** technical, QA, and relationship support
- Expert cultural navigation via unique Toyota HQ in-house experience and 25 years in Japan
- Proactive program management and opportunity spotting on the ground

WHO WE ARE: JASON PAUL REVELLE

25+ years experience in Japanese corporate communications, direct Toyota Motor Corporation HQ background (2004–2007, ongoing support), hands-on automotive expertise

Key differentiators:

- Toyota HQ insider perspective of how Japanese OEMs make decisions / manage supplier relationships
- Unique blend of practical auto experience, 25+ years of Japan-based, cross-border execution (corporate communications for major OEMs/suppliers)
- Dedicated on-the-ground presence in Japan—without the cost of a full local office
- Expert navigation of Japanese business culture and long-term relationship-building

NEXT STEP...

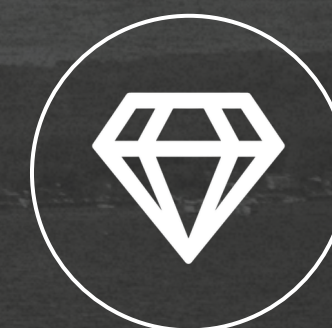

Ready to strengthen and expand your existing Japanese OEM programs—with far less travel and much faster results?

Let's discuss how Revelle Automotive Partners can become your dedicated, low-risk Japan office—delivering on-the-ground presence, cultural alignment, and consistent execution that most suppliers can't achieve remotely
